N A Squires : Ghoulish Rhymes before purchasing it in order to gauge whether or not it would be worth my time, and all praised Ghoulish Rhymes:

Welcome to the world of Ghoulish Rhymes! Here is a collection of macabre and frighteningly good scary poems to keep your little devil's up at night. Ranging from a vegetarian werewolf, to the real story of Hansel Gretel, this book is

guaranteed to give both children and adults alike goose-bumps! Remember, just keep telling yourself...it's just a book.
