Really funny. Does have some offwall quick fix recipes - some looked pretty good. He absolutly loved it after just reading cover. Said he couldn't wait to read it thoughly. Recommend to anyone, but not really as a cookbook. More like a gag cookbook.0 of 0 people found the following review helpful. it's funnyBy Roy W KlineIf the Onion published a cookbook, they would... .com A cookbook sure to please those whose refrigerators glow in the dark, Giga Bites is a romantic tour through the entrails of hacker culture, including the ins and outs of a Hacker Dinner Party; getting wired and staying wired; losing weight on a high-calorie diet; and new uses for Cheez Whiz. Put down that keyboard and break out the Butterfingers!
