The Queen (of Twitter) : Gin O'Clock before purchasing it in order to gage whether or not it would be worth my time, and all praised Gin O'Clock:

1 of 1 people found the following review helpful. Queen of the HillBy Kindle CustomerThis book way beyond hilarious! It is a diary written by Queen Elizabeth II, supposedly, and in it she drinks large quantities of gin (only made in London), she has her Corgi dogs bite the PM's pants off at two separate state visits to Sandringham, she has bacon sandwiches for breakfast daily, she eggs on the Duke of Edinburgh, her husband, to do outrageous things (sounds like

a good marriage), she "reviews" Presidents of the US to see if she should fire them or not, she carries in her PURSE the "Nuclear Football" i.e. button to push to start a nuclear war, size small, some tapes of Queen singing "Killer Queen" and small bottles of gin. She makes Camilla sound not like The Rottweiler but like a clueless bumbler. For American readers her making the Assistant PM sound like a Terrible Two child may not be quite understandable, some Brit inside joke. Regarding the nation of France, she is always trying to sell it on Ebay or give it as a birthday gift, although her greatest wish is to exchange it geographically with Australia. If one remembers British history, England when conquered by William became part of France, then when Henry II married Eleanor of Aquitaine, he called himself English and with owning Normandy plus Aquitaine, about 7/8th of France was owned by the British throne. Then there was the 100 years war and many more wars contesting who REALLY owned France. The Queen has a long memory so she claims France. If there were a French king today, he would probably claim to rule (own) England! Never resolved in the Royal Mind. This book is relatively short and laugh inducing, so I recommend it to both Royalists and Republicans (and Whigs?). Have fun, guys! 7 of 7 people found the following review helpful. Gin O'Clock.....The Queen is drier than her Martini By Customer Spend a year in the shoes of The Queen. An entertaining read from a Royal's perspective written in diary form. If both acerbic and caustic wit are not your style, perhaps buy Winnie Churchills memoirs instead. An excellent read I was sad to see the end of. 3 of 3 people found the following review helpful. Straight from the Queen (of Twitter) By Robert P. If you enjoy the twitter account Queen_UK, you will love this book. Written in the same voice, with the expanded back story behind the tweets, it's a delightful romp through the year with Her Majesty. It's not a simple list of her tweets, rather it is developed into a diary form. The story is quite funny, and well worth your time to read. Hopefully this is the first of many books to come.

IN 2012, THE DIAMOND JUBILEE YEAR, HER MAJESTY'S DIARIES ARE OPENED AT LAST...***Offering insight from the top on all the major events of 2012, including the two Royal weddings, the phone hacking scandal, and the Duke of Edinburgh's tarts and vicars-themed 90th birthday party.***'Had a quick run-through of the opening ceremony. One wanted to call it "The Empire Strikes Back" but it was generally felt that might intimidate the smaller nations.' Queen of sixteen sovereign nations, Head of the Commonwealth, Defender of the Faith. She's one of the world's most well-known and powerful leaders and has reigned for 60 years. But what does she really think?' One does enjoy the Eurovision Song Contest. Lovely to be reminded how much more civilized the British are than our European neighbours. Royal Eurovision Fancy Dress Party to celebrate. Unfortunately Camilla misread the invitation as 'Euro-tunnel Fancy Dress Party' and came as a train.' These diaries reveal the seldom-seen workings of state and reveal how an octogenarian is quietly ruling the world and still has time for a gin.

It's the sort of book to leave beside the loo, a jokey compilation you can dip in and out of - though I will be reading it from cover to cover, grinning from ear to ear because of its sharp, quick-witted and always apt sending-up of people with a public life. foodepedia (blog) easily one of the funniest fictional Twitter accounts Styleandthensome (blog) Witty and irreverent peeks at the innermost thoughts of the Royal Family. Choice The clever folk at Hodder Stoughton have teamed up with the mystery person behind the tweets to create a new book, naturally called Gin O'Clock, purporting to be the secret diary of Elizabeth Windsor. Bar Magazine Our favourite tweeter is publishing her diary. Here's The Queen (of Twitter's) guide to festive etiquette. Marie Claire About the Author By the Grace of God, Queen, Head of the Commonwealth, Defender of the Faith, wife to the DoE, mother, grandmother and great-grandmother.
