Nan Lyons : Gluttony: More is More (Sin) before purchasing it in order to gage whether or not it would be worth my time, and all praised Gluttony: More is More (Sin):

7 of 7 people found the following review helpful. A deliciously witty compendium of food lore---tasty and fun!By A CustomerGLUTTONY: More is More is for everyone who has ever eaten, dieted, binged or indulged a secret passion for Mallomars. Filled with stories of great banquets, diet fads and gustatory anecdotes of the rich and famous, it also includes recipes adapted from historical cookbooks, as well as some of the funniest and most gorgeous classical artwork of people enjoying their food. A sinful delight from cover to cover!1 of 1 people found the following review helpful. Great Recipes, TooBy A CustomerThis book is amusing and painlessly informative, and the art is really great. But I like the recipes best. They work like a charm; follow them and you and your guests will be eating like the royalty of old.

Nan Lyons (Who's Killing the Great Chefs?) looks at history's lavish feasts, richest (and oddest) dishes, great chefs and prize eaters, with recipes and color paintings.

"So beautiful I can't bear not to have it." -- Gael Greene, New York Magazine
