too little applicability to simple, day to day situations.0 of 0 people found the following review helpful. Do you really believe that God is faithful? Do you know for certain that He won't be late with the help you need in your life right now?

For anyone who has ever felt frazzled, stressed, confused, hurt, angry, undone, or any other emotional response to the difficulties and uncertainties of life, Stan Toler serves up a delightful combination of poignant-and hilarious-reminders that God is still at work in the world. And He is 100% faithful!

No wonder they can declare that pinto beans and fried bologna are a feast of faith. Because that's what a group of loving friends brought to Stan's home on a Christmas morning when he was five years old-and there was no food left in the house. No, God is never late!

So when nothing seems to be happening in your life, something really is happening. Yes, it is possible to cope with life even if you don't know how to program a VCR. Yes, the God who sits on a throne in Heaven is interested in you right now!
