Jon Smith : GOD SPEAKS! The Flying Spaghetti Monster in his Own Words before purchasing it in order to gage whether or not it would be worth my time, and all praised GOD SPEAKS! The Flying Spaghetti Monster in his Own Words:

115 of 115 people found the following review helpful. Kill me nowBy Kevin WilsonAfter reading The Gospel Of The Flying Spaghetti Monster last year, I expected this book to be more irreverent fun based around the whole FSM concept.How wrong can one person be?I managed to get through roughly half of the book and that was only because I

couldn't find a newspaper at work to read instead. The author has taken the fun out of the FSM and my impression is that he is just trying to cash in on Bobby Henderson's creation without making much of an effort other than putting the words Flying Spaghetti Monster through a program that creates anagrams. It's garbage and not worth the effort of shelling out your hard earned bucks. If you have already bought it, use it to prop open a door or stick it in the bathroom for when you run out of toilet paper. 1 of 1 people found the following review helpful. Incredibly boring piece of pasta
By Customer
What a blasphemy! My lord and light FSM shall smite you with meatballs! He true ain't so boring! This pitiful piece of ten years old pasta mocks the true existence of Flying Spaghetti Monster! I tried to read this for more than 15 minutes and now I shall never get my precious time back! It's like reading an old phone catalog while bunch of whiny old dwarves are singing praise your FSM on the background. Shame on you, Jon Smith! 151 of 156 people found the following review helpful. Sorry, not funny.
By Edward M. Langham
The Gospel of the Flying Spaghetti Monster was a hoot--I recommend THAT book easily--but this book is a waste of money. Seriously. I'm sorry, but even The FSM wanted to smack this author with his noodly appendage.

Wisdom direct from the FSM's noodly lips. Insight on sex, service, and cleanliness; the 7 deadly sins and other world religions. Prophecies on the end of the world 10,000 uncensored verses. With humor, GOD SPEAKS! challenges us to go beyond superficial religiosity and look for deeper meaning. GOD SPEAKS! is Prof. Jon Smith's first effort of anagram scholarship into the meaning of the "FSM." Although this book is of historical interest, its updated version, GOD SPEAKS: THE PASTAFARIAN QUATRAINS, offers a deeper and clearer insight into the true anagram message of the FSM. It is much more strange and sexually explicit.
