The inside pages actually explain the joke to the "reader". Not funny. THIS IS NOT THE ONE YOU'RE THINKING OF. DO NOT BUY.0 of 0 people found the

We've come to the part where Diane (the head of the law firm) receives from a professional admirer a lavishly decorated gift which, upon being unwrapped, is the book "Going Rogue" by Sarah Palin. Diane reciprocates, sending in the same box the book "Going Rouge" by Bob Silber. The shots in the filmed episode are quick but adequate--unless you don't immediately spot the difference between "Rogue" and "Rouge." 10 of 24 people found the following review helpful. This book is a JOKE! Literally By Dr. Gary P. KLAHR We bought this book under false pretenses! We believed that it was a satire and it turned out to be just a big joke with blank pages from cover to cover! One chapter blank along with the as a satire would have been worth the money. As it is, I've spent \$20 dollars on a book of blank pages that is worth about 20 cents and a photo of Palin which is worth nothing!

This is a novelty book. The reader opens the book to find no text, just blank pages. The book contains no text. The book contains only blank pages. A parody of one of America's best known political figures, demonstrated by symbolic blank sheets, satirically representing the mind and thinking of Sarah Palin. Give this book as a useful gift while making a clever and amusing political statement. The book can be used as a journal, notebook, recipe book, diary, witch's spellbook, or paper weight.
