Golfers and Skiers is a humorous, enlightening and unique “coffee table” book looking at forty similarities between the sports of Golfing and Skiing. Over 130 pictures drive home the fun points to show the comparisons. Even better,

the pictures and narrative they show the reader how their skiing improves their golfing and how their golfing improves their skiing.

About the Author Mike Dunn, Author, is a former skiing instructor, ski racing director, former amateur skiing national champion and an avid golfer. While teaching multiple sports, he began to realize an effective teaching tactic to relate an aspect of the sport he was teaching back to the student's sport they were most comfortable with. He became more and more successful using linkages with demonstrations and word pictures between sports to speed and deepen understanding. It became apparent that the similarities of golfing and skiing were off the chart. He started documenting the similarities and Golfers and Skiers was born.
