This is a goofy book to enjoy with friends, and it might even inspire the odd oddball who isn't sure whether they like reading yet to get in the habit of cracking a book! Kid-suitable, ish, and wonderfully irreverent. Stimulates curiosity and tickles the punny bone. The illustrations are adorable. Altogether an ingenious first book for a new author!

Have you ever known someone that is constantly getting into trouble or being injured by doing things that no one in their right mind would do? I know millions of them; Bedbugs.Good Night, Sleep Tight: Dos And Don'ts For Bedbugs explores the bizarre world of the bedbug's mindset. Each entry in the "Don't" section is an admonition to the reader to forbid the curious and often deleterious insect from engaging in its inexplicably unconventional doings.In the "Do" section, the reader is given a lengthy (but not exhaustive) directory of alternative activities to steer the bugs toward, as a device meant to preoccupy and divert them from the more harmful aspects of their penchants.Jam-packed with hours of outrageous amusement, this book will delight readers from young to old, guaranteed or double your parasites back.
