Perfect addition to any family's book collectionBy nanci schimanThis made a wonderful gift for a friend who is having her third child and undoubtedly has all of the standard children's books.0 of 0 people found the following review helpful. Rewards close inspectionBy TroglodyteWe got a couple of these as gifts for grandparents, and I was delighted to see that the artwork rewards close inspection. There are tons of amusing references to parenting trends on every single page, from the titles of books on the bookshelves to the ridiculous gadgets strewn about the room.Highly recommended, especially as a gift to people of the older generations :)0 of 0 people found the following review helpful.
