James Brink : Grandpa's Enigma: A Personal Observation of ADHD from Birth to Teenage before purchasing it in order to gage whether or not it would be worth my time, and all praised Grandpa's Enigma: A Personal

Observation of ADHD from Birth to Teenage:

Alexander Leos has Attention Deficit Hyperactivity Disorder (ADHD). There are definite negative effects of this disorder but on the plus side, it contributes to the tremendous pleasure he gives to all that come in contact with him. Over the years his antics have brought considerable laughter to his family and others. Grandpa's Enigma is his grandfather's attempt to share with you the humor that Alex, almost entirely inadvertently, has given him. If, in addition, the reader gains a better appreciation of ADHD and how it may be dealt with, we would be most pleased; however, it was never our intention to provide any guidance, just a few laughs.

About the Author James Brink is a graduate of the University of Nebraska. After serving 30 years in the US Navy, he is currently retired. Kathy Leos is the daughter of James and Sally Brink and the mother of Alexander, who is the major subject of this book.
