It's perfect for children. The font is large and readable, the language is simple, and the story provides a great introduction to serious matters including death, nazis, and redneck uncles. My daughter reads the entire book to me at bedtime. I highly encourage parents of small children to invest in this wonderful book. It provides a much need respite from Dr. Seuss and Goodnight Moon.0 of 0 people found the following review helpful. Funny book.By R. W. HuffThis isn't a book for kids, but since we dont have any, my fiance read it to her older niece and nephew. Inappropriate, but not our kids. It's a pretty funny book.5 of 5 people found the following review helpful. Great kids book that's not for kidsBy BobLadewigI have a feeling this book was written when brainstorming humorous titles of fictional kids books. The back page of the book has a list of some of the funniest titles of fake books you'll ever see. This simple story written in rhyme and the art are both awesome and make for an incredibly fun book. I'm a big fan.

From ridiculous wardrobe changes to a pantless clown, a hilarious cartoon story about the lengths some people will go to try and wake up Grandpa! This Lil Golden Parody takes a look at the lighter side of discovering a cadaver in your living room. What ridiculous lengths will be reached in trying to wake up Grandpa, and were those fishnets really necessary? A hilarious cartoon book from Simon Max Hill and Eisner Award-winning cartoonist Shannon Wheeler!
