As someone who has worked with the public for many years I could easily connect with many of stories Ms. Breton wrote about people passing through her life via her job as a hair dresser. I myself have always felt like what I call a "freak magnet". While that does not sound very politically correct, I am basically saying that no matter where I am, complete strangers want to suddenly start telling me their life stories out of the blue. Maybe of these people seem to be the oddest of the odd. And from reading this book, you can see that the author deals with the same type of situation. This collection of short stories about different people she has met in her life made me giggle out loud at times and then tugged at my heart strings other times. Especially the one about her Dad. My only problem with it.....is that it ended. It was such a quick little read and I was immediately hooked. I wanted more. I really hope that the author sits down to write a second volume of these stories or at least a revised edition with the current stories extended. There is a real gem in here. With a bit more polishing, in the form of a sequel or extended version, this little gem will sparkle quite brightly!1 of 1 people found the following review helpful. THIS LITTLE BOOK WAS A DARLING LITTLE B OOK I LOVED IT.By VALERIE TOWNSENDI GAVE IT TO MY HAIRDRESSER FOR A SMALL CHRISTMAS GIFT I HOPE THAT SHE LIKED IT AS MUCH AS I DID.1 of 1 people found the following review helpful. Funny and EntertainingBy P. TeixeiraHair Raising Stories is a great coffee table book that anyone can enjoy. If you are in the business of working with people, no matter the profession, you can relate to the whacky things people do. You'll get a chuckle out of this book.

" HAIR RAISING STORIES" is a book about a number of my experiences as a hairdresser. Being in the business for twenty seven years, I have encountered many walks of life that have come through the salon door and have sat in my chair. The stories are all true,(believe me, I'd be hard pressed to make half this stuff up!) Although geared toward hair dressers world wide, it has universal appeal. There are many lessons to be learned throughout life and many lessons I have learned by working with the public and through my clients themselves. Many are humorous and will tickle the funny bone, while others will pull and tug at the heart. The reader will be drawn in and know they are not alone as they will be able to relate to some or most of the stories.
