Mark Steele : half-life / die already: How I Died and Lived to Tell About It before purchasing it in order to gage whether or not it would be worth my time, and all praised half-life / die already: How I Died and Lived to Tell About It:

2 of 2 people found the following review helpful. wonderful bookBy the vermeil dragonReally really really good. At least for me and my husband and where we happened to be in life when we read this. Funny without annoying "wackiness," very well edited. Vulnerable, insightful, pointed; Steele has a remarkable ability to absolutely nail a point

in an engagingly roundabout manner that ends up investing a lot more meaning and memorable quality into it than simply stating it concisely and directly. We really enjoyed the ride, even while being brought face to face with some unpleasant and ungodly attitudes and assumptions in ourselves.³ of 3 people found the following review helpful. This poor guy and his family had a really hard year ...By BobbiThe story line is kind of choppy and it took me a little to get the flow. But the context kept me reading. And it is a humorous, thought provoking book written in an example style. This poor guy and his family had a really hard year and he shared how it enlightened him. Sometimes seeing who we really are isn't pleasant. Sometimes life doesn't go as we thought it should. He shares this in a humorous style along with how he was enlightened and how the Lord was working in his life the whole time. But we do have free will and sometimes, that gets in the way.⁰ of 0 people found the following review helpful. Half Life?By Lisa QuillerI started this book wondering where we were going. But then I found Mark reading my mail...and I couldn't wait to get back to the book to see what happens next. Rarely does a non-fiction book grab my attention like this. So much Truth in this book and he writes/lives from a "real life" perspective. Not religious at all. I really enjoyed how even when it was hard, Mark's faith didn't waver. He continued doing what he knew to do. And God met him in his need. Great read and so necessary for me today.

Life is certainly circular. In time, we face the same struggles, reenter the same habitual cycles, and encounter the same types of frustrating people. In time, we always end up facing what we tried our darndest to evade. In fact, we spend so much time trying to avoid the inevitable that we rarely take time to learn, grow, and embrace the rough stuff. Half Life / Die Already suggests that the route to real living is dying to self. With non-stop humor and out-there insights, Mark chronicles his journey-in-progress with often hilarious results. Readers of all ages will enjoy his wit and wisdom, and be inspired to just die already.

About the AuthorMark Steele is the president and executive creative of Steelehouse Productions where he creates art for business and ministry through the mediums of film, stage, and animation. Mark is the author of Flashbang: How I Got Over Myself. He lives in Oklahoma with his wife, Kaysie, and their greatest productions: Morgan, Jackson, and Charlie.
