David Howard delivers a very enlightened, irreverent and insightful roast of current politics and culture. His comedic background adds humor to "soften" the absurdity of the current political class in Washington, DC. This author and this book is a repository of knowledge and wisdom that is needed to restore sanity to our American culture and politics today! I give this book five stars, two thumbs up and one big smile.1 of 1 people found the following review helpful. A Great Read!!!By BOB (Palm Harbor,FL)I loved this book! Humor is a great way to get a serious point across, and G. David Howard hit the nail on the head. A must read for anyone interested in seeing where this country is headed if we don't start changing the way Washington conducts business. I bought this book to give out as Christmas gifts to friends and they all loved it. Thanks G. David for verbalizing these issues, that we're all frustrated with, in such an amusing and totally understanding way.0 of 0 people found the following review helpful. CommonsenseBy RobertIn the mid 1980's, my parents went to see G. David while on a trip to Florida. They brought back two tapes of his performances. I promptly complied them and proceeded to do what the title implied, laughed my ass off. Upon remembering those tapes I found this book.This book is full of classic G. David humor and commonsense views on the state of the union. If you believe that you are thick skinned and fairly open minded and you find yourself getting upset at the views of the author, guess what? You are neither.Loved this book.

G. David Howard combines two passionate interests-humor and politics-in his first collection of personal essays that creatively examine current events in America and the actions of our government. Howard, a seasoned stand-up comedian, addresses a variety of controversial topics with both funny and frank tones intended to provoke laughter and thought about our leaders and the direction our country is headed. As he explores how groupless people have no representation, why gasoline prices have doubled, and how socialists want to destroy freedom and increase taxes, Howard blends facts with his own spin on potential solutions. Included is a script from an imaginary and imaginative golf game between Barack Obama, John Boehner, Joe Biden and Chuck Schumer, as well as a montage of Howard's opinions on a wide range of subjects, such as climate change, driver distractions, and gun control. Half of America Is Nuts, and They Were Allowed to Vote shares one man's take on our world as he presents an unforgettable roller-coaster ride through America and its political system"
