**Elena Bogdanovych : Happy Coloring 4: Geometric Kaleidoscopic Patterns (Volume 4)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Happy Coloring 4: Geometric Kaleidoscopic Patterns (Volume 4):

3 of 3 people found the following review helpful. Great for crayons and bigger markers! By Stephanie Vun Kannon These are very nicely designed geometric patterns sized big enough for fine markers (rather than ultra-fine) and CRAYONS! I usually like VERY highly detailed designs to color but sometimes I want to color without squinting! I've done 11 pictures in this book so far and look forward to the rest. I highly recommend this book and plan to buy more by Elena Bogdanovych! 0 of 0 people found the following review helpful. Five Stars By Phil Good designs, a great time waster! 0 of 0 people found the following review helpful. Five Stars By Taylor Pearson exactly what I wanted

This collection of beautiful patterns, inspired by the mesmerizing appeal of kaleidoscopic geometric compositions, will captivate and excite colorists of all ages. The book contains design of various difficulty levels and the images are printed on the fronts of pages only, so you don't need to worry about bleed-through if you choose to use markers.
