This book should be renamed "The Practical and Down to Earth Guide to Retirement" By Johnny Bott Very humorous, informative and most of all down to earth advice on retiring ! I almost felt as if Mr. Paciello was sitting in my living room as I enjoyed reading the conversational tonality of the book. This no nonsense approach to retirement is not found in many of the books on the subject today, therefore making it not only an easy read but also an easy to implement guide to use in pre-retirement life planning. Job well done ! I will use many of his tips, suggestions and advice as I move closer to my day in the sun! 0 of 0 people found the following review helpful. Delivered What He Promised By Lucille Z The author of Has Anyone Seen My Reading Glasses? delivered what he promised: a humorous, informative journey through his early years of retirement. I found myself smiling and often chuckling out loud at his funny stories, comments, and asides about an inevitable upcoming life change for those of us who are 50 plus. Pat Paciello's approach to the subject of retirement resulted in a researched, enjoyable read that incorporates his own personal experiences during this phase of his life and soon to be ours. I made note of the many sound tips he offers for a painless transition into retirement. For someone who jokingly claims that he does nothing, but does it well, this modest first-time author did this well. 1 of 1 people found the following review helpful. Mr Paciello Hits a Grand Slam Homerun By R. Ninger In his very first writing endeavor, Mr Paciello has written what we all are feeling as we Babyboomers reach middle-age. The stories are priceless and the advice is insightful, which makes for a very easy read. I have recommended this book to family and friends, and hope there is another book floating around this talented writer's head. If not, I guess there is always golf.

Has Anyone Seen My Reading Glasses? offers a unique and fresh approach to the subject of Baby Boomer retirement. First, it's written by a Baby Boomer who is actually retired. Second, the book is long on humor and personal anecdotes, and short on statistical analysis. In the book, Pat covers topics that are not normally seen in the table of contents of most retirement books, such as Timesharing, Cruising, and the Women's perspective of Baby Boomer retirement. No matter how serious the subject matter, like Financial Strategy, or Long Term Care Insurance, Pat's goal is to simultaneously educate and entertain his audience.
