how much I loved cats until I read this book. I mean I thought I did, but apparently there was so much more love to be discovered. I found the illustrations delightful and very illuminating to the true nature of God's finest creation. Katelyn Scott is truly the genius of her generation. I can't wait until the sequel comes out!!!!!! I read it to my cats every night at bedtime before I tuck them in. :)0 of 1 people found the following review helpful. Five StarsBy CustomerSimply a great book

Alrighty unfortunate, deprived people who don't share their home with a cat, it's finally here. The ultimate cat simulator book to fill all of your catting needs. Experience a feline enriched life through a cat's eye perspective and gain life-changing insight on how cats see the world. You will never look at the universe the same way again. This snarky little pocket book is filled with the innermost thoughts of a cat that are sure to make both cat-lovers and non-cat lovers laugh a lot. Like, a whole bunch. Seriously. Expect abs from your laughter. **DISCLAIMER:** The author of this book is not responsible for brain implosions, uncontrollable meowing, or the inevitable longing to own a cat. Read at your own risk. But don't worry because this book is completely safe you'll be fine. By the way, this book uses the word "crap". If this word offends you in any way or goes against your upstanding morals, just bleep it out in your head when reading it. (I'm not going to tell you not to buy my book what kind of a marketing cat enthusiast do you think I am?)

About the AuthorKatelyn Scott lives in Georgia with her family because she's not old enough to live on her own yet and would undoubtedly die from starvation if she were to care for herself. Her favorite pastimes are the internet and theatre. She's a pretty cool person.
