Sheri Lynch : Hello, My Name Is Mommy: The Dysfunctional Girl's Guide to Having, Loving (and Hopefully Not Screwing Up) a Baby before purchasing it in order to gage whether or not it would be worth my time, and all praised Hello, My Name Is Mommy: The Dysfunctional Girl's Guide to Having, Loving (and Hopefully Not Screwing Up) a Baby:

1 of 1 people found the following review helpful. Hilarious and so much great advice
By Sherry Jensen I love it that Sheri Lynch is so REAL. she doesn't beat around the bush. she doesn't avoid awkward topics. she doesn't stick to traditional, boring, parenting advice: she gives you all of it and she does it in a clever, humorous, and make-you-think way. I think every new mother should read this. Even if she isn't dysfunctional, it just has a lot of great advice and shows you all of the options you have in every arena of parenthood: birthing options, breastfeeding options, same-room-sleeping options, etc, etc.

By Holly I didn't like how it was written because its audience is directed toward women with rough childhoods... still had some useful info but it was annoying for me to read since I had a "normal" childhood. It was like an exaggerated effort to comfort the reader as a new mom worrying about carrying on bad habits from their poor mothers.
0 of 0 people found the following review helpful. SUCH a great read
By Gina Marshall I purchased this book because I love Sheri Lynch and it did NOT disappoint!! I highly recommend it and purchase it for all my friends that are mommies to be. Only complaint I have is that I wish I had gotten it earlier in my pregnancy and could have even used it PRE pregnancy!!

Hilarious and true and inspirational, Hello, My Name is Mommy is for every pregnant woman and new mother who ever felt helpless and out of control instead of confident and aglow. Sure, women know pregnancy is no bed of roses, but Lynch taps into her own dysfunctional childhood and fears about becoming a mom to label a much profounder worry many moms-to-be have: that their own pasts were so screwed up that they're doomed to repeat the cycle. Dr. Spock may tell moms to trust their instincts, but Lynch's Misfit Mommies want to do every last thing but that. They feel like frauds and imposters, and Lynch's real-girl's voice will be instantly recognizable to them. Lynch will walk and talk new moms through it all: from lamenting the hot dogs and second-hand smoke they were raised on (and, of course, "you turned out just fine") to the realization that kids are kind of germy and gross (but feeling that way doesn't make one a bad mother) to keeping it together at work with Cheerios in the old nursing bra.

From the Back Cover Trust Dr. Spock, but listen to Sheri Lynch, who decodes the pitfalls of pregnancy and trials of new motherhood in this hilarious little book. Hello, My Name is Mommy is for every pregnant woman and new mother who ever felt helpless and out of control instead of confident and aglow. Lynch taps into everyone's fears of becoming a mom to honestly talk real-girl to real-girl about what's bothering many moms-to-be:--If a mommy was raised on raw hot dogs and second-hand smoke is she doomed to repeat the cycle?--Kids are kind of germy and smelly and gross, but does thinking that mean you're a bad mommy?--Can a working mommy actually go to a meeting and function with Cheerios stuck to her body under her nursing bra? Full of useful advice and understanding, Hello, My Name is Mommy is for every mother who isn't quite sure if her instincts can be trusted and who may have wondered-even for one second-if she's already screwed up her newborn's life. About the Author Sheri Lynch lives with her husband, stepson and two children in Charlotte.
