Used this to help our kids with their lemonade standBy bookreader451We bought this book for our children as a cautionary tale of what happens in a regulated free market. Our kids were determined to open their own lemonade stand without government interference.I would like to tell you about their experience.First, when they were building the stand and my son accidentally injured himself (we do not have health insurance, and chose to pay the fine rather than get that Obamacare) my son's wound became infected and required a trip to the emergency room. So as with most new business the kids started their lemonade stand with a large debt. We told them debt is good because it lowers their tax burden so they do not have to pay the government. Great learning experience.Secondly, on the first day of service, a customer suffered a bee sting; they had an allergic reaction that required medical care. They filed a lawsuit against my children due to their negligence in cleaning up their industrial waste (spilled product containing too much sugar). My children were held liable for the medical cost. I mean seriously why do they have to clean up their mess just because someone could suffer. I mean aren't bees green like the liberals want?Thirdly, the kids decided to hire someone to sit in the hot sun for them, after all how could they be the job creators if they had to work? Therefore, they interviewed many employees but no one was willing to accept sub-minimum wage. How ungrateful. Here my kids are trying to help the unemployed and they expect minimum wage. I mean maybe they should get an education.The whole enterprise was a disaster. I mean how are these kids supposed to become job creators when they have to worry about industrial accidents, consumer harm and lazy poor demanding wages.330 of 372 people found the following review helpful. BOOK GOODBy Dylan GladyszBOOK VRY GOOD. RUSH LIMBOGH TELL ME SO. USEFULL FOR MAKEN KIDS THINK LIKE ME. KIDS THINK RITE NOW. COMPUTER VRY HARD SRRY FOR BAD GRAMMER N SPELLIN LOL.4 of 7 people found the following review helpful. Five StarsBy Susan A.Great gift for a baby shower!

This full-color illustrated book is a fun way for parents to teach young children the valuable lessons of conservatism. Written in simple text, readers can follow along with Tommy and Lou as they open a lemonade stand to earn money for a swing set. But when liberals start demanding that Tommy and Lou pay half their money in taxes, take down their picture of Jesus, and serve broccoli with every glass of lemonade, the young brothers experience the downside to living in Liberaland.

From the PublisherWould you let your child read blatantly liberal stories with titles such as "King King;" "No, George, No;" or "It's Just a Plant?" Unless you live in Haight-Ashbury or write for the New York Times, probably not. But with the nation's libraries and classrooms filled with overtly liberal children's books advocating everything from gay marriage to marijuana use, kids everywhere are being deluged with left-wing propaganda. "Help! Mom! There Are Liberals Under My Bed" is the book conservative parents have been seeking. This illustrated book -- the first in the "Help! Mom!" series from Kids Ahead -- is perfect for parents who seek to share their traditional values with their children, as well as adults who wish to give a humorous gift to a friend. Praised by Rush Limbaugh and hailed as "the answer to a baseball mom's prayers" by talk radio host Melanie Morgan, this book has already been the subject of coverage in The Wall Street Journal and Harper's magazine. Written by a self-proclaimed "Security Mom for Bush" and featuring hilarious full-color illustrations by a Reuben Award winning artist, it is certain to be one of the most talked about children's books of the year. About the AuthorKatharine DeBrecht is a mother of three. A freelance newspaper reporter, she served as South Carolina's co-captain of "Security Moms for Bush."
