John W Nichols : Help! My Daughter's Getting Married! before purchasing it in order to gage whether or not it would be worth my time, and all praised Help! My Daughter's Getting Married!:

0 of 0 people found the following review helpful. Three StarsBy desertoasishMy dad hates it but it got there on time, haha.0 of 0 people found the following review helpful. Good stuffBy Geo CobbEasy fast read, to the point, practical and thank goodness -- humorous! The things to say to those special guest are classic!1 of 1 people found the following review helpful. Entertaining book filled with practical advice and good, down to earth humorBy Philip A. PopeI have

a young daughter so I thought it would be interesting to get a glimpse of what my future holds. "Help! My Daughter's Getting Married!" is an entertaining book filled with practical advice and good, down to earth humor (I think every family has a "Frankie Freeloader" - see the chapter on relatives attending the wedding). I enjoyed reading all the insightful recommendations from another practical minded, do-it-yourself type father like myself. The length of the book was just right for a relatively quick read and it had a charming design and layout with the note card and graph paper illustrations. I would highly recommend this to any current or potential future father of the bride! Another good read from author John Nichols. I look forward to his future writings!

Men, your daughter's wedding may be one of the greatest challenges and yet one of the most amazing opportunities you will ever encounter. Before you jump into the uncharted waters of planning and paying for that ceremony, read about another man's experiences and then. . . charge ahead. . . with a clue!
