Im not really a comic book reader but this thing is the best!0 of 0 people found the following review helpful. Curse the fates that bind me to these shoresBy HikermanGreat cartoon originally in National Lampoon. Hercules works construction in a modern city and struggles to assimilate with a sometimes violent temper. Family life is examined as well.4 of 5 people found the following review helpful. Hercules Amongst The IrishBy Paul BellExcellent reading for fans of ancient modern history. This is the story Disney ought to have made the film from!

Chronicles the adventures of Hercules in modern-day America, circa the mid-1980s. Much of the modern world is confusing to the mighty Hercules; he mistakes a subway train for a monster and battles it to the death. Victory goes to

the son of Zeus, of course! The many passengers who are casualties of the affair are an unfortunate side-note. Hercules also works as a bike-messenger in New York, kills his psychiatrist and carries off his lovely receptionist, discovers the wonder of the Heavy Metal Gods (blasphemy!), and reviews several Greek restaurants. These comic strips originally appeared in National Lampoon (back when it was funny) and High Times. They're drawn in a deliberately crude style that sets the perfect tone for the book. The whole book, in fact, is packed with good stuff; this is a gem that will have you laughing uncontrollably more than once.
