As with the coloring book, this set of designs include a playful little kitten on each page. The concept of the book is to color a design page and use it for framing or as a border for your own picture or whatnot. I will use them for a variety of purposes including as cards or uplifting sayings by writing my own sentiment in the open space of the design.The designs are fun to look at and to color. They are detailed but not intricate and small to color. The blank areas range in size and shape according to the design. Some of the designs have themes (such as travel, cooking, artwork, etc.) but others are more generic. I like the diversity of the design concepts but with the cute kitten theme throughout. The designs are printed on one side of the page with the exception of the alphabet at the back of the book. On the back of the design pages there is a design in white on peach that is generic in nature or which coordinates with the design on the facing page.The book cover is white and has beautiful embossing on it. There is a half size dustcover sleeve which surrounds the book. The book has an open easy hinged binding which allows the book to open flat and to remove pages easily by carefully pulling them away from the

binding.45 Designs (plus alphabet at back of the book and intro pages)Picture frame template includedPrinted on one side of the pagePaper is heavyweight, white, slightly smooth and non-perforated though still easy to remove pagesGlue binding with notepad style binding for easy removal of pages in wholeBook opens completely flat for coloring with no damage to spineAlcohol-based markers bleed through the paperWater-based markers, India ink pens and gel pens do not bleed through or leave shadows on the back of the pageColored pencils work well with this slightly smooth paper. It still has enough tooth to grip pigment well. In testing both oil and wax-based pencils, I was able to layer the same color, multiple colors and to blend easily using a pencils style blending stick.In addition to the copy of this coloring book that I purchased on , the publisher sent me a sample advanced reader copy of this book.0 of 0 people found the following review helpful. Adorable!By Jennifer RotruckI have a huge coloring book collection and this is one of my favorites. The paper is very nice, the drawings are adorable and I love that you can add your own drawings or quotes inside the frames.0 of 0 people found the following review helpful. Great book!By LindaLove this book! Great pictures to frame.

After the success of Hidden Nature, the Toc de Groc designer team offers a collection of frames and borders for you to color in. Inspired by nature patterns and organic forms, a little kitten hides in each illustration. The patterns appear only on one side of every high quality paper page, which you can easily tear out. The book includes a holder template. Toc de Groc is a design studio created in 2001. The team of three women designers produce artwork for children of all ages and for teens. They design textiles and home and paper products, among other products.

About the AuthorToc de Groc is a design studio created in 2001. The team of three women designers produce artwork for children of all ages, including teens. They design a wide variety of products from textiles to home and paper products, and have designed postcards for UNICEF and created world renowned children's fashion designs.
