Load of great quotes from those middle class Mums that speak loudly and confidently without really thinking...it's also put together really well by the Author into different sections ..if you've ever listened to bossy helicopter Mums (or Dads) and smiled, then this is for you !

'Her first words were "shoes" and "brioche".' 'There's no nicer way to put this, but frankly anyone can afford to go skiing these days.' 'Of course I said "no". A trampoline in the garden gives out entirely the wrong message.' Based on the popular Twitter account @Highgatemums, this hilarious collection brings together the most outrageous snippets of conversation that have been overheard in the shops and cafes of this gentrified North London suburb. Highgate Mums also includes confessions from mothers dismayed by their own upper-middle-class offspring and submissions from fathers making fun of themselves with the hashtag #lattedads, revealing day-to-day life among Britain's chattering classes as never before.

Hilarious... Excruciatingly funny * Daily Mail * You don't have to live in Highgate to know that these snippets of haute bourgeoisie wisdom are terrifyingly accurate... Will make you laugh out loud on page after page -- Marcus Berkman * Spectator * About the Author Dan Hall has been running the @HighgateMums Twitter account since 2012. He lives in London.
