North Morgan : Highlights of My Last Regret before purchasing it in order to gage whether or not it would be worth my time, and all praised Highlights of My Last Regret:

1 of 1 people found the following review helpful. A great read.By P. T. TressellIt was like watching a car accident unfold in slow motion. I wanted to look away but doing so would have prevented me from finishing this novel filled with really great characters and a spectacular collision at the end that was both logical and a complete surprise. The book is dark, funny, and a lot of fun to read. Get it.0 of 0 people found the following review helpful. By PGood

looks... North Morgan chronicles the the lives of the bright young things. Sex, drugs, Coachella. Quick and easy read. 1 of 1 people found the following review helpful. Five StarsBy K. P. GaughanThis novel is rapturously brilliant, looking forward to your next one!

Highlights of *My Last Regret* is a satire focusing on the lives of privileged young Americans from the West Coast. It's primarily an account of the turbulent relationship between 24-year-old Parke (the beautiful but cruel offspring of Maine and Sadie from *Exit Through The Wound*) and his girlfriend Ryan (a smart, vulnerable girl from small-town America) and the effects its ups and downs have on each of their lives. The story is written from Parke's perspective with the intention to give a jarring, uncomfortable to read, but hopefully captivating insight into a character with an unusual moral centre.

'Women are outrageously superficial' I'm telling him. 'Look how they choose partners. In high school and college, every girl is after the jocks. They don't care how much of a dick a guy is, or how stupid, just as long as he's popular and good at sports.' 'You're outraged by that, are you?' Markus says. His eyes are darting off everywhere around me and I'm surprised that he's even heard me. Ignoring him, I continue. 'When they hit their late 20s, everything changes. They want to find the nearest victim, marry him and settle down. And because of that, their priorities shift. Not towards anything of any substance, mind you. It's just that the most important factor is now financial success. All the guys know this, of course, so they give up on any pretenses they previously made of caring to look attractive, keep in shape and wear nice clothes. And all their efforts are concentrated towards one thing: making money.' This appears to be of no interest to him, so Markus makes his way back into the house, walking past the bar that's set up by the pool area outside. I follow him. Inside, he starts going through the liquor cabinet in a small sitting room. We're the only people here. He picks up what looks like a bottle of old Scotch, fills the red cup he's been holding halfway to the top, takes a sip and swallows two pills. 'Do you want some?' he asks. I shake my head no. 'Of course. Parke Hudson doesn't drink or take drugs' he says in a mock innocent voice. Markus is a trust fund waste of space, and my closest friend.
