**Robert C. Pritikin : Highway House** before purchasing it in order to gage whether or not it would be worth my time, and all praised Highway House:

A murderous tale about food to chill your spine, churn your stomach, and leave you limp as a wet noodle.

About the Author The San Francisco Examiner stated, "If Bob were a color, he d be charismatic Carnelian." Author of four books, including the one you are now about to read, Bob started planning his various careers at age six with the

dream of becoming an elephant trainer. While that plan never materialized, his other pursuits did, including becoming a star gymnast. I used to stand upside-down on one arm. "I'm lucky to stand on two feet today," he quipped. Billed as America's Foremost Concert Saw Player, he's performed with Johnny Cash, Carol Channing and Eddie Fisher. A long-time stage magician, he dazzled crowds with his dismembered talking head. An advertising icon for decades, the industry's bible, Advertising Age, described his ads as sheer genius. Get ready for his latest book, a fiction novel that could well cause you to upchuck. But as your toes begin to curl, you will turn the next page expecting and even hoping to be further shocked. Fasten your safety belt! You're in for a literary crash landing.
