Individuality Books : Hippo Coloring Book before purchasing it in order to gauge whether or not it would be worth my time, and all praised Hippo Coloring Book:

1 of 1 people found the following review helpful. Total garbage!! By Customer I would leave NEGATIVE 100 stars if I could!!!! This by far is the WORST adult coloring book I have ever seen!!!! My oldest daughter's favorite animal is a hippopotamus, not the easiest animal to find in an adult coloring book solely of them, and my youngest's favorite is an elephant. I was thrilled when I found this book, I didn't hesitate to place my order, also ordering my other daughter an elephant one!! When the package arrived on my doorstep, I couldn't wait to see their eyes!! I literally wanted to crawl under the table because of complete and total humiliation when my oldest started flipping through the pages of this so called "adult" coloring book!!!! I strive to treat my daughters equally. Here my 15 yr old received a very detailed beautifully designed book of elephants, and my 23 yr old received total crap!!!! Nothing in this book even remotely falls into the category of ADULT!!!! Some of the pictures don't even look like hippos!! This is DEFINITELY a

children's book, I should have purchased this for my grand daughter!! If I'm not mistaken the design on the cover is one of the pictures inside!! I have purchased more detailed Disney coloring books at the dollar store!! EXTREMELY UNSATISFIED is an understatement!!!!
