**Jack Cochran : Re-tales: Tales from the Retail World** before purchasing it in order to gage whether or not it would be worth my time, and all praised Re-tales: Tales from the Retail World:

Retail employees understand consumers, but very few consumers understand the people that bring them and sell them their goods. This void has made communication difficult for years. In an effort to understand and see through the eyes of the people who work in retail, Re-Tales centers on the thoughts and adventures of Jack, the new manager of a dying

toy store. He's really awesome. With his co-workers Lars and Kirsten, he encounters "customers", weirdos, and even a self-proclaimed vampire. Told in a series of short, fast paced stories, readers learn what it is like to work behind the register and how they really feel about the people that they serve.
