This book is amazing and is shedding light on who I have become and who I want to be. It explains why men are they way they are! It also lets men and women alike know that men do not have to stay emotionally broken. There are genetic things that make men certain ways, but it is a myth that men are born emotionally broken! This book also covers the positive and negative

aspects of the feminist movement. The book also states that men as a whole are going through a major cultural change! Many men are stuck between two ideologies, the new and old. a MUST READ.0 of 0 people found the following review helpful. EcellentBy GordonThe book, Real Men Have Feelings Too (Men of Integrity) is a great book. It arrived on time and in great condition. I recommend both the book and the seller.

Gary's book sounds a much-needed call for men to embrace all of what God has given them, including their emotions. Real Men Have Feelings Too is nourishing reading and essential for any man who wants to develop a Christian heart.
