**James Malcolm Gilmore : Red Bloom** before purchasing it in order to gage whether or not it would be worth my time, and all praised Red Bloom:

0 of 0 people found the following review helpful. The title makes it sound like a Russian plotBy CustomerRed Bloom is a novel based on fact. It takes place in 2023. As a work of fiction it shows what could happen to our government. It can't be classified as Science Fiction, but it's just as suspenseful. The title makes it sound like a Russian plot. Actually, it's more than that. Much more. The characters are very well drawn. There are true love/hate relationships among the

White House Staff as they work to solve problems they have never faced before.

Red Bloom is the code word for a 65 year program to destroy the U. S. Government by turning it against itself. The main characters are Yuri Menzhinsky, a Committee for State Security defector, Jack Koslow, the President's National Security Adviser, Bob Sears, the President's Chief of Staff, Val Koslow, Jack's Wife, Masha Ivanova, an interpreter at the Russian Embassy in Washington, Peter Moran, Moscow Internet News Anchor and correspondent for the Washington Times, Sara Gur a Mossad assassin, Lynn Griffin, Koslow's Executive Assistant, and Vladimir Bourmin, Deputy Premier of Russia.
