Stephen Jorgensen : Relaxing Hawaiian Scenes: An Adult Coloring Book before purchasing it in order to gage whether or not it would be worth my time, and all praised Relaxing Hawaiian Scenes: An Adult Coloring Book:

3 of 3 people found the following review helpful. Lots of Detail...SHOW Us Designs BEFORE We Buy #981...By classicsGGmaThe designs all look like the paint-by-number pictures we've seen/done before...without the numbers. You can use the color pictures on the front and back covers as guides...eReader users, back cover pictures are a few pages after the front pix. For those of you who want a bit more challenge and/or maybe some help with shading designs this might be a book for you. Personally, though like detailed pix, don't like these...broken up too much for me. When we buy coloring books in stores we can look inside to see if we like the designs and check for any deigns we already Have. WHY Not Here On ??0 of 1 people found the following review helpful. Four StarsBy MARGERETT ROBERTSCalm is the thought.3 of 3 people found the following review helpful. No Kindle PDF included, to download this Adult coloring book!!! You can only take Screen Shots in JPG. NOT WORTH IT!By Lili G. There is NO Kindle PDF in this book to download this coloring book!!! Way to much JUMBLED pictures, your eyes will hurt. For an author that wrote a book on "How to Publish Books on Kindle and Make a Small Fortune, The E-Book Money

Making System" He should know that Coloring Books for Adults MUST have a PDF link in the ebook to really interest People in purchasing these coloring book! He really Missed Out Here! I DO NOT Recommend this Coloring book in Kindle Version! WE are Not stupid People! WE know how to Color... We Don't Need all those JUMBLED pictures, like the author says in his comments in the book. WE are NOT Interested in taking PRINT VIEWS in JPG form, one at a time! WE Only want Coloring Books for the Kindle App that have links inside to download in PDF. I Don't Recommend this Book.

This book is a coloring book for adults. It is more complicated than a child's coloring book with smaller and finer details. You have to concentrate to color in all the small shapes. That makes it an ideal method to clear your mind of many negative thoughts and it helps you relieve stress. Coloring will reduce anxiety, and help you focus and will bring you more mindfulness. It is therapeutic. Plus, this coloring book will bring the beauty of Hawaii into your life. The next best thing to actually going there. All the work here is by the Hawaiian artist Stephen E Jorgensen. He has produced over 200 other works of beautiful Hawaiian art sold in Hawaii and on the internet. Most of his work is as large canvas wall hangings, some of which are reduced to the coloring pages in this book. A lot of his other Hawaiian work is smaller 6"X8" watercolors which provides the originals for most of the images in this coloring book. 26 one sided coloring pages are presented here. Many of the pictures here seem like just a jumble of shapes as they are outlines of slightly different painted colors in the originals. You have to look at the full color reproductions shown on the front and back covers to see what color the shapes are and what the result should look like. You don't have to use the exact same colors but the images on the covers will show you where the fish ends and the coral begins, or where the flower petal ends and the leaves begins, and so on. Many of the colors are just slightly different, so it is best to used a large selection of colored pencils to be able to find an appropriate color, and it helps to "layer" two different colors to get a better match. For instance, coloring a purple over a red will give a darker more scarlet red. All the coloring pages are one side only, so no bleed-through will mess up a drawing on the opposite side of the page if you do use color marking pens. Enjoy your coloring.
