If you like a little humor, a little history, and some good backwoods tales you will enjoy this book by Sgt. Walker, author and banquet speaker. In this world, times are changing so fast that it is hard to believe what so many of those old time game wardens lived through. In this book, you will travel back to the first part of the last century to spend time with the game wardens of that era. You will also read some tales which are hard to believe really took place. As the author says, "You would not believe in your wildest dreams that some of these tales are really true. But they all are." There is also an old game warden's philosophy on life and how it has changed and how it should scare those that love the great outdoors. He also places a warning that a game warden's humor is addictive and reading one of the "Tales from a Game Warden" books quickly leads to seeking a complete collection of these nine books.
