Kenneth J. Bindas : Remembering the Great Depression in the Rural South before purchasing it in order to gage whether or not it would be worth my time, and all praised Remembering the Great Depression in the Rural South:

"A vivid portrait of how rural Southerners responded to the Great Depression and the New Deal . . . strikes a balance between letting the voices speak for themselves . . . and placing these voices within a coherent understanding of the existing historical literature of the 1930s." -- Charles C. Bolton
