TaylorI've been 'stress' coloring for over a year now and can tell the good paper from the bad...you know what I mean, cheap paper that doesn't accept color well. This is one of those!! Hate when they use cheap paper and the patterns are repetitive.0 of 1 people found the following review helpful. Poor qualityBy BaconMamaThe printing in this book is terrible, it looks like it was done on a home printer that was running out of ink. I think the designs could have been better illustrated and incorporated more elements of design from bygone eras. I was purchasing this book as a supplement for a fashion

class I am teaching for youth but am really disappointed with my purchase.0 of 1 people found the following review helpful. AvoidBy ShoosmumVery poorly drawn. There are similar books available with better illustrations. I returned it.
