Mr Nick Higgins : Rhino Hunt: Boys will be boys. Girls will be vengeful before purchasing it in order to gage whether or not it would be worth my time, and all praised Rhino Hunt: Boys will be boys. Girls will be vengeful:

" Full of wit, banter and tons of swearing....It's an extremely funny book that can be read in less than a week, as it will rarely leave your hands." Robert Bradley. Huffington Post. If it's a fun, laugh-out-loud read with a great storyline you're after, then this is the book for you. Based around the hilarious exploits of a lad-about-town, Rhino Hunt is

packed with comedy, adventure, laughter and realistic characters that are easy to relate to. That said, as one reviewer commented, it's not for the faint-hearted. It's also an insightful take on modern society and some of its current values. Richard's a hard working estate agent by day, and a hard living practical joker by night. That is until a chance meeting with an intriguing girl turns his life upside-down. The coming months will test his resolve, ingenuity and liver to the utmost. Months which will have dramatic consequences for himself, his family and his friends. Throw in a long-standing feud with a work rival, loads of situation comedy, sharp and perceptive storylines, a tortoise and several blow-up dolls then you have a recipe for a comedy adventure that will have you splitting your sides.

About the Author Nick, outgoing male, 59 but YAH, GSOH, curvy with soft, bloodshot hazel eyes. Enjoys travel (to and from the pub), good food and nights in front of roaring fire. Desperately seeking readers aged 18 - 80. Looks unimportant, but sense of humour would be appreciated. Could you be the one for me?
