They are all my favorites, but taco cat and sharks with laser beams are the funniest to me! I also adore the narwhals, as I am obsessed with them! This is a very fun book to own! Rooted in Wacky Fun contains 20 one-sided detailed designs that will put a big smile on your face! You can use any coloring mediums but if you plan to use markers for coloring it, placing a piece of paper between pages will help to prevent marker bleed through to the next page. this book in my eyes would be good for all ages to color, as they are not too intricate or adult based!2 of 2 people found the following review helpful. Fun, quirky, and unique, but thin paperBy Jesse ByahhhI want to give this book 5 stars. With a couple small changes, I would. First of all, the paper is pretty thin. Luckily it is only printed on one side so you can put a buffer page between coloring pages to stop any

marker bleed. Also, I wish the pages were perforated to make it easy to tear out of the book. Lastly, I wish there were more pages for the price. However, all in all, this is an adorable and unique coloring book for all the big kids out there! I purchased this for a friend as a birthday present and I want to keep it for myself! 1 of 1 people found the following review helpful. This is a great book for everyone.
