Curt Brummett : Roping Can Be Hazardous to Your Health: Southwestern Humor before purchasing it in order to gage whether or not it would be worth my time, and all praised Roping Can Be Hazardous to Your Health: Southwestern Humor:

were soooo funny they brought tears to the eyes and sore belly muscles to any one who listened to them. We were truck drivers back then and literally had to park the 18 wheeler on the side of the road until we stopped laughing and cleared our eyesight. We took those tapes on vacation with our grandkids to help entertain them on the long rides and again had to stop the rocking car until we all stopped laughing and kicking so we could continue. The tapes finally wore out and I can't find them anywhere so I bought his books. They are funny, but they haven't had the same impact as the tapes. The stories he tells are wonderfully funny, I guess you'd call them, cowboy humor. 0 of 0 people found the following review helpful. I think they are perfect and easy reading for anyone young or old

Considering the fact that I wrote these books, I think they are perfect and easy reading for anyone young or old. 0 of 0 people found the following review helpful. Curt Brummett is a hoot.

If you haven't heard Curt telling his stories, you've missed out, try and find his CD's. He is so funny.

Not everyone could make a funny story out of diving off a thirty-foot windmill into a holding tank with (because of a certain inattention to detail) three feet of water in it. Or out of a day that started with being stung by three scorpions roughly the size of draft animals and went downhill from there. Or out of managing to get your three-year-old grandson bucked off a bull, higher than you'd ever seen a kid fly. Brummett has. Through the wit and the one-liners, Brummett portrays an American West in which the old way awkwardly accommodates the new, in which the day's drudgery is seasoned with humor and punctuated by practical jokes, and in which the irrepressible frontier spirit continues to prevail.
