**Various : Russell Baker's Book of American Humor** before purchasing it in order to gage whether or not it would be worth my time, and all praised Russell Baker's Book of American Humor:

0 of 0 people found the following review helpful. Five StarsBy Richard D. WellerExcellent. I am currently enjoying this book5 of 5 people found the following review helpful. Sample some of this bookBy N. B. KennedyRaised in the era of Dave Barry and, well, I don't know who else to name because most humor is visual these days, but raised as we have been in this generation in which most humor is of the in-your-face variety (except, of course, Garrison Keillor), it's difficult to appreciate the style of earlier humor writers. To appreciate the selections in this book, you have to slow down and savor the gentle satire and dry humor that characterized previous generations of writers. I wasn't entirely successful, try though I might. Skip around and find what you like. Sampling is better than simply closing the covers of the book.5 of 6 people found the following review helpful. Not that funnyBy S. GriffinThere are some gems in here, but not enough. The letter written by Groucho Marx is great, you can hear his voice in it. About two-thirds of the way through I got tired of wading through the muck to get to laugh-producing material, and gave up. I understand that this is not a joke book, but I just thought it would be funnier.

Shows some signs of wear, and may have some markings on the inside. 100% Money Back Guarantee.
