Edward Dadiomov : Russian Jokes, Anecdotes and Funny Stories before purchasing it in order to gage whether or not it would be worth my time, and all praised Russian Jokes, Anecdotes and Funny Stories:

1 of 1 people found the following review helpful. A great and lasting gift to anyone with a sense of humor. By Alex Lantsman A pleasure to read. Very good collection of highly entertaining jokes and anecdotes with a first-hand insight in Russian (as much as, in many instances, American) way of thinking about life and people. Often, they cause really

non-stop laughter. I shared many with my friends and they keep spreading them around. A great and lasting gift to anyone with a sense of humor.0 of 0 people found the following review helpful. Not Russian and not funnyBy Harry eyeballNeither jokes nor funny. Most of the crap in here is rehashed old, stale comedy routines with Russian names and places inserted. I would not have even minded if the stories were not funny, but at least authentic.2 of 2 people found the following review helpful. From Russia with love and... humorBy Maxim MatusevichThis book is absolutely hilarious. Even if some jokes are lost on you (a distinct possibility) it will make for a fantastic conversation piece. Go ahead and buy it, it's a small price to pay for much hilarity.

My English is beautiful but not perfect that's why I'm asking you correct my misspellings and incorrect phrase constructions. The book you are going to read is a compilation from different sources: communication with my friends, reading books, newspapers, magazines, listening to the radio and watching TV. The book consists of separate chapters (sections?) and each of them has its own name that reflects the subject (topic) of its content. Some of the entries were borrowed from English sources. Some translations are difficult to understand for English speaking people. Some of entries lost a lot in translation but they still funny. Some entries can be abusive. If that is the case for you, reader, just ignore them, please.

About the AuthorEdward Dadiomov was born in Russia in 1944. After graduation of St. Petersburg Electro Technical University he started to work as an Electrical Engineer at one of Research Facilities. He and his family came to USA in 1989. He started to work as a Senior Electrical Engineer at Motorola, Arlington Heights, Illinois in 1990. Currently Edward Dadiomov is about to start his retirement.
