Scott Rubin, MoDMaN : Saddam Dump, Saddam Hussein's Trial Blog (National Lampoon) before purchasing it in order to gage whether or not it would be worth my time, and all praised Saddam Dump, Saddam Hussein's Trial Blog (National Lampoon):

2 of 2 people found the following review helpful. Warning!By Vallier HardyIf you're highly concerned with appearances, you may think twice about reading this book in public. Not one to "giggle" normally, I found myself (along with the people surrounding me on the plane) having difficulty holding back the giggles. I received a lot of raised eyebrows and cold stares! People on planes are really much too serious. Anyway, besides the giggles, I found myself being educated (with a small "e") about the history of Saddam and his situation he finds himself in. I also found myself having a bit of compassion for the guy. How is that possible?! Go ahead, live dangerously... buy the book already!!!0 of 0 people found the following review helpful. MoDMaN and Rubin are BAD BAD BOYS!By

SurferGirlIf this book doesn't start WW III, nothing will. The irreverence, the doctored photos, the paper doll, ...we are doomed. Too funny and clever. Loved every page, and want more. You go Saddam! I'm one of your many MySpace friends thanks to this little paperback, and proud of it! Strength IS power, and The Saddam Dump is some powerful humor!! The pictures alone are worth the price...Hilarious!!!0 of 0 people found the following review helpful. I'm glad we let Osama goBy Steve OchsAfter reading Saddamdump (I bought it for my commute and couldn't stop reading it), I realized that going after Saddam has just been proven to be more than a squandering of treaure and lives, it was the catalyst for funny. Read the book and laugh, I know Osama will!

Is heckling a workable defense strategy? In National Lampoon The Saddam Dump, Saddam's opinions on the trial of the century are captured for the first time in his very own blog. People from both sides of the political spectrum will love to make fun of the character most poised for parody.

About the AuthorThe experience of the staff and various contributors to National Lampoon spans more than 36 years of publishing funny material for the web, print, and TV. Scott Rubin is the current Editor in Chief of National Lampoon, and MoDMaN is the Senior Art Director.
