Since 1987 editorial cartoonist Jim Day of the Las Vegas Review-Journal has satirized the process of attempting to find the "best" way to dispose of nuclear waste by "studying" only a single option--burying the stuff in Nevada and shipping it through hundreds of populated cities across America in the process. As Congress prepared to endorse what some feared as the inevitable, Day and the Las Vegas Review-Journal collected the best and insightful of those jabs into this book.
