Rick Kirkman, Jerry Scott : Scribbles at an Exhibition (Baby Blues) before purchasing it in order to gage whether or not it would be worth my time, and all praised Scribbles at an Exhibition (Baby Blues):

3 of 3 people found the following review helpful. Alas, so trueBy kitty katThe funniest Baby Blues yet. Most people who read this book won't be able to stop themselves from snickering, groaning, shanking their heads and laughing out loud. The authors shine a bright spotlight on the things kids do to drive us crazy. The stunned, exhausted and often times fatalistic looks on the faces of the parents in the book are the same looks we have all seen on the faces of the people around us. The children look at their parents with innocent eyes and wonder what all the fuss is about. What makes it all so funny is that each of us knows someone who is/was exactly like one or more of the characters in the book. The different interests and behavior patterns between boys and girls is clearly shown in this issue. This is one of the best books on childrearing I have ever seen. It's honest, funny and doesn't give parents false hope. It also shows us that life isn't to be taken too seriously and that everyone is in the same predicament. Very funny and believable book. Oh, one more thing...it might be possible that one or two of us were exactly the same as the kids portrayed in this wonderful book but, of course, I could be wrong about that.0 of 0 people found the following review helpful. The strips are mostly outright hilarious. They are sometimes poignant, but never sappy or preachy. Just Plain Fun To Read!By Catherine ElizabethWe own *all the Baby Blues books. The parents kids in the strip are funny because they're

grounded in the loud, smelly, dirty, loving, sleepless, happy reality of having raising children. The strips are mostly outright hilarious. They are sometimes poignant, but never sappy or preachy. There is no overarching "soap opera" filled with angst, as is found in many similar strips. These strips are just fun, funny, funniest. Our elementary-age son loves them, also. 0 of 0 people found the following review helpful. very entertaining By moi all the baby blues books are so fabulous. if you are a parent or around little kids a lot, you will be able to relate to all the adventures of the McPherson family. and besides for the zany antics of the characters, the authors of this comic strip throw in some really beautiful philosophical insights every now and then. hope they continue writing the strip for a long, long time.

??In the chronological collection *Scribbles at an Exhibition*, readers get a close-up view inside the home of the MacPhersons, a perfectly normal family with perfectly chaotic lives. Daryl and Wanda are deep in the trenches of child rearing and earning their stripes as parents to Zoe, Hammie, and baby Wren. Baby Blues "recently celebrated an achievement that is considered the comic industry's top milestone: surpassing 1,000 newspaper clients around the world." -Arizona Republic
