Unlike other books on wine this author explained the basics of wine without the boring facts of fermentation, grape growing etc. It was wonderful learning how Not to get caught up in spending ones life savings just to enjoy the pleasure of the many varieties of wine.0 of 0 people found the following review helpful.

A Novice's Road Map to Drinking WineBy Ron FensterFor most of my life, I did not see or appreciate the fascination of drinking wine. My skill set was limited to the Golden Age of Cinema where drunken Kings dribbled it down their chins and Passover where the profit never showed up to drink the glass of Mogen David which sat lonesome at the end of the table. Then my brother started a vineyard and I was intrigued by his efforts to crush grapes and drink them. I recently visited him and tasted from the barrel, his first crop. Still a bit young but very good. I thirsted to find out more which makes me sound like someone who now knows about wine but in reality, I knew nothing about the secrets of this magical drink. So I went on and found this book, about those secrets. The Author Jerry Greenfield has created a road map for the newcomer and the experience alike. It is a romp through vineyards and wineries throughout the world and the results of centuries of consuming the drink of the Gods. His witty humor binds the book from personal experience and the tales of wine masters, vineyard owners, and of course consumers throughout the world. Now I am hooked and actually feel intelligent about drinking wine knowing the many secrets and where they came from to create to make the only drink I know that has a history from the beginning of time. Greenfield's writing is exceptional tackling a subject that for me, and I am sure many others was heretofore very dry.

"Secrets of the Wine Whisperer" is an informative, enjoyable and Very Funny chronicle of an innocent couple's descent into wine appreciation. From "how to select a wine glass" to "is a cork really needed" to "how the wine ratings work," the book is filled with vitally useful (and often hilarious) information for both the wine newcomer and experienced enthusiast. The "Wine Whisperer" is not in the wine business and does not make a living from the wine trade. His "ordinary person's" voice brings a sense of discovery that will touch and amuse both the wine beginner and confirmed collector.
