By a cello This coloring book is wonderful for anyone who wants to learn and be inspired when they are relaxing. The coloring tips that are given alongside the images lets you come in to the book with artistic techniques other than block coloring and shading by pushing harder on the colored pencil! There is a great variety of images in the book, ranging from mandalas to landscapes, still life to famous paintings. One of the main points of the layout of the book is that there are no blank white pages. As someone who owns quite a few coloring

books, paints, and draws, this idea is fantastic! Because I almost always work from photographs when I draw or paint, starting from nothing when it comes to color and shading can be very intimidating! Beautifully illustrated and thought out.

Tim Chambers is a fellow artist who creates beautiful paintings, not in spite of – but because of – his weakness.
