**From MDI Australia : Senior Moments Flip Book** before purchasing it in order to gage whether or not it would be worth my time, and all praised Senior Moments Flip Book:

If you know someone that has one to many senior moments; this Senior Moments Flip Book would make a fabulous and very amusing gift for any occasion. This Flip book has a hardback stand for easy display on ant flat surface; each page can be flipped over the ring binder to reveal a different quote on each page in large black text, which makes it easy for the more mature of people to read!! The first page is the same as the front cover and reads "Senior Moments - Wit Wisdom" along with a black and white image of a sprightly old couple! Every page there on has wonderful witty quotes that will amuse anyone that has the pleasure of reading them!
