Since I'm a disorganized mess, it would have been nice for it to come with a pocket for all the papers I lose. Also it's only 12 months which is a problem because the school always gives you a school's year worth of activities to keep track of so it would have been nice to jot everything down in the same calendar. When compared to others at the same price, I don't feel like I got the same value. 0 of 0 people found the following review helpful. Funny, but not designed well (in my opinion) By Colleen Hahn The only thing I don't like about it is that the notes column on the right looks too much like another day of the week. Because of this, I keep almost writing things on the wrong day. 0 of 0 people found the following review helpful. It's actually functional! By Ms Erika I was worried about there being enough room to write down everything I need for my two sons and my home business but this is great!!

Even the best mother feels that she takes more shortcuts than she should. This wall calendar is designed to keep even the most overwhelmed of mothers on track and chuckling on their way to doctor's appointments, soccer games, ballet lessons, and all other family events and activities.
