or social club. Very funny as well and makes you think! I really enjoyed this book and I highly recommend it to others.

As a licensed social worker, Arnitia Walker has seen it all. She's met people from every walk of life-all trying to find their own way in this crazy world-but she's paid particular attention to the other sex. In *Shake 'Em Up They All Fall Out the Same* Arnitia offers up a humorous, tongue-in-cheek catalog of various types of men, including: Married - This guy is devoted to his wifey. He wears his wedding ring with pride. He has a true tan line on his ring finger because he never takes the darn ring off. He takes care of home, and his wife is his first priority. He would never dream of hurting her. Cheater - This guy couldn't be faithful if he was sitting in a church. He does not know the meaning of monogamy. To him, women are like a box of candy: soft, chewy, caramel, chocolate, smooth, fluffy, etc. He's just got to sample them all. He has to have a variety of women to meet all of his needs. Minute man - No, he's not the watch repairman. Need I say more? Filled with amusing descriptions of men, this book will shed new light on your past, current, and potential relationships. These men are your brothers, uncles, fathers, boyfriends, and husbands. As a woman, you've probably already encountered at least one man who's portrayed in this book-and if you haven't, hold on-he's probably just around the corner.
