Young, Horace S. Mazet : Shark! Shark! before purchasing it in order to gage whether or not it would be worth my time, and all praised Shark! Shark!:

2 of 2 people found the following review helpful. Von Luckner fans, beware By David Parish "Shark! Shark!" itself isn't bad, and provides an interesting look at sharks through the eyes of an experienced shark hunter. NOTE: This book is frequently found advertised in searches of antiquarian books as "by Felix von Luckner" - be aware that only the introduction (and a short one) was written by Graf von Luckner. Don't buy this as a von Luckner book or you will be disappointed. Buy it instead as a fairly well written book about sharks and the Pacific islands of the early 1900's, and

enjoy it for that.
