John Leone : Sharklock Bones: Knight Tails (Sharklock Bones Fish Detective) (Volume 12) before purchasing it in order to gage whether or not it would be worth my time, and all praised Sharklock Bones: Knight Tails (Sharklock Bones Fish Detective) (Volume 12):

This is number 12 in the Sharklock Bones: Fish Detective series. The series is for kids from ages eight to 80 and are truly "Children's Books for the Whole Family". "Knight Tails" has the legendary King Author seeking Sharklock's help in completing his quest, the Quest for the Homely Whale. But danger lurks along the way! The King's evil brother, Moe Pedd, and aided by Marvin the Magician have all the sea animals trying to destroy Author and his companions. Their goal is to take the Kingdom of Camel Lot away from Author. In this "tail" of deception and trickery, you'll find some unusual characters, quite common in this series. Meet Knight Roglycerine, Knight Owl, the Court Gesture and many more.

About the AuthorJohn Leone started writing these stories for the enjoyment of his grandchildren. He incorporates many references to songs, showtunes, movies and icons from the 60's, 70's and 80's which make the books popular with the adults. The books have been referred to as "Children's Books for the Whole Family". These books have been

becoming more and more popular. John is currently working with a local theater who are interested in making a full length stage production of the series.
