Great picture book, but seems lackingBy A CustomerThe pictures in this book are incredible!The size of the book adds to the visual impact of the pictures: about 14" tall, 10.5" wide.However, the text seems incomplete and lacking. Not recommended to be read as the definitive lesson on sharks.0 of 0 people found the following review helpful. Great book for shark enthusiasts of all agesBy Anna HuntThis book has fantastic images. I bought this book for my husband, who was always fascinated with sharks. He absolutely loved it. My 4 year old nephew also loved this book when visiting - so much that I bought him his own copy. I highly recommend it.
